**ATTORNEY**  
H. M. ADAMS, Practise in all courts  
Office, 102½ West Okla. Ave.  
Phone 414

**CLASSIFIED ADVERTISING**  
RATES:  
15 Weeks, 1 time, \$2.  
15 Weeks, 2 times, \$3.  
15 Weeks, 3 times, \$4.  
No Classified Advertising is accepted for less than \$2.  
TELEGRAPHIC ADDRESS

**WANT ADVERTISEMENTS**  
Want advertisements in the Leader must be in the office by twelve o'clock if cancellation is desired. Classified ads are cash, except where parties have regular accounts at the Leader's office. The Leader's collectors have experience to make trouble in locating many parties who have phoned in wants, that it is necessary to invoke the cash-in-advance system, except where regular accounts are maintained. Handbooks of "what is wanted" or "for sale," etc., may be left at the Leader business office and same will be converted into form ads.

**"BOOTLEG WHISKY EATS INK SPOT OUT OF FLOOR**

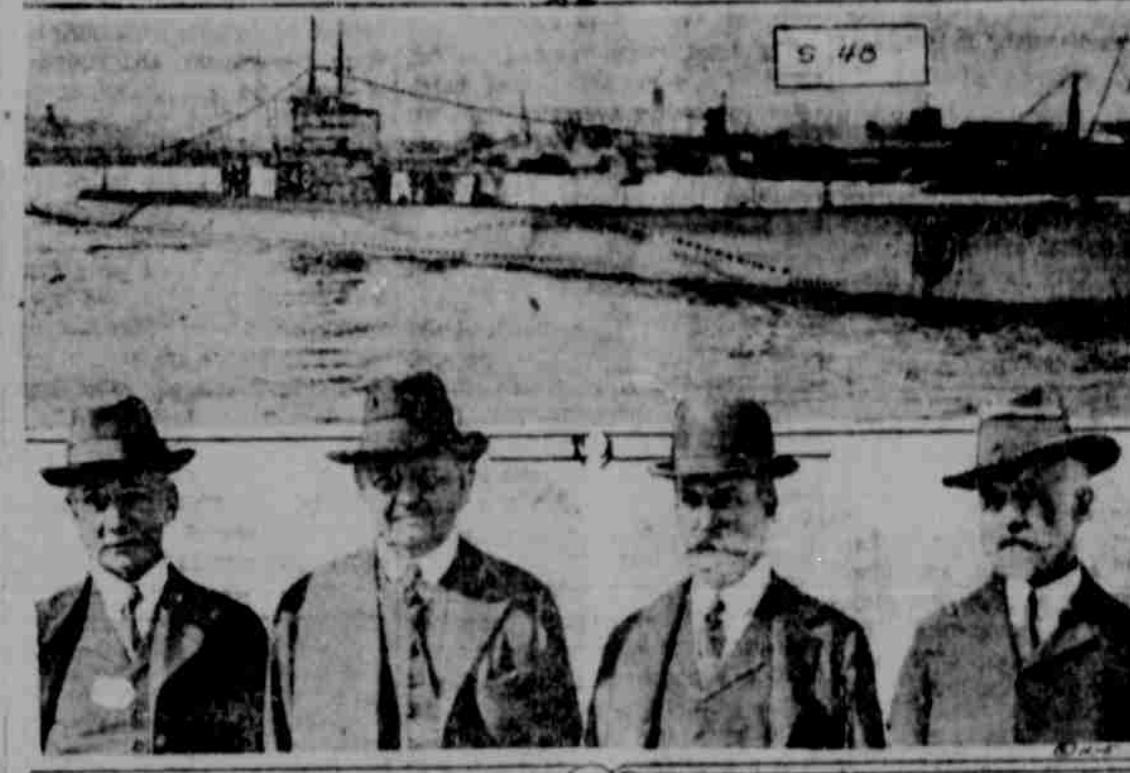

New Haven, Feb. 12.—Moonshine whisky that removes ink from hardwood floors was a gift to Fred Kingston, local broker, today. Kingston, while moving into a new office, spilled a large bottle of black ink on the new floor.

Not having ink remover convenient, he tried the whisky which had been presented him. The "whisky" removed the ink, the stains and bleached a large white spot in the floor.

A state athletic association for high school girls has been organized in North Carolina.

## THE DEADLY SUBMARINE, SLEUTH OF THE SEAS. VITAL PROBLEM BEFORE CONFERENCE ON ARMS LIMITATION

The S-48, the latest word in American submarine construction, on her trial trip after she was launched at the Lake Torpedo Boat Company, Bridgeport, Conn.

The delegation that represents the United States in the international conference called by President Harding to consider the limitation of armaments and Far Eastern questions finds itself confronted with a vital problem in the American submarine and its development. As the conference group, headed by Secretary of State Hughes, casts up the balance of armament efficiency it will find that the United States is sadly lacking in strength of submarines, yet, at the same time, it well to the fore in the development of submarine as a weapon of war, thus to American inventive genius and American business ability.

Reports on the American submarine fleet prepared by the Naval Intelligence Service and other navy bureaus of the American conference group will demonstrate that while American ingenuity has kept fully abreast, or just a little ahead of the rest of the world in the development of the submarine, the American government has fallen sadly behind in the construction of the undersea ship.

## U. S. Behind in Submarines.

Secretary Hughes, former Secretary of State Elihu Root, Senators Henry Cabot Lodge and Oscar W. Underwood, making up the group which must protect American interests in the epoch-making conference, will have before them detailed tabulations of the submarine strength of all the powers of the world. These statistics will demonstrate that the United States lags far behind in the building of submarines.

On the other hand, the American group will have before it data which will show the tremendous strides made in the improvement

of the submarine in the United States during and since the world war. They will have reports on the performances of the S-48, the last word in American submarine construction, during her recent trials after she left the ways at Bridgeport, Conn.

They will have before them the testimony of naval experts that the submarine has become of supreme importance in any overseas war for scouting and operating offensively on any enemy coast.

The evidence will show that the submarine has displaced the cruiser as a commerce destroyer, and that it will prove a deadly factor in future wars.

With the submarine a possible

deciding factor in future wars, it will be of supreme moment to determine what effect any limitation agreement may have on the relative submarine strength of the nations of the world.

## UNUSUAL PHOTOGRAPH OF M. POINCARE

Following the breakdown of the Cannes conference and the dramatic resignation of M. Briand, the ex-President accepted the office. Photo shows M. Poincaré at the Elysee Palace.

Briand's resignation was accepted by the French government. The new prime minister, M. Poincaré, accepted the office. He is shown here with other members of his cabinet.

## The School Bonds.

Editor Leader—I am a Guthrie citizen who is in favor of doing all that is necessary to help advance the best interests of our city in education and in every other way but I agree with "Citizen and Tax payer" that a new high school building is not necessary at the present time. The present high school building was built with the idea of building on to it when it became necessary. Why not do that? Its capacity can be doubled. The grade school buildings can have all necessary improvements made at much less than the proposed cost.

The present high school building is not objectionable. Many of our citizens have

proposed a few thousand dollars walked from one to two miles over country roads (not paved streets) to school and are better off for the experience. Times are hard. Why not economize in every possible way.

L. U.

Painting the Tower Bridge in London employed 120 men working full time for eight months.

The first woman with sovereign authority was Semiramis, queen of Assyria, 2017 B. C.

EXCESSIONS OR OPINIONS OF GENERAL INTEREST.—Editor Leader reserves the right to blue-pencil where communications exceed 500 words.

Writing must be legible and on one side of paper only; all else will be discarded.

Anonymous communications will not be printed. Name and address must be given. Communications of a confidential nature will be withheld on request.

Publication of a letter is not to be regarded as an endorsement by the Leader of the views expressed.

## I wholly disapprove of what you say and will defend to the death your right to say it.—Voltaire to Helvétius.

## The School Bonds.

Editor Leader: It appears that the same old mafia is already raising objections to the voting of bonds for high school. This has always been the way with those who fear they must give up an extra dollar or two for taxes. Everybody in this town knows we need a high school building and improvement in the present high school. Why drag the issue forward so long? It is time to get rid of the old school board and let the new one do its job.

It is time to get rid of the old school board and let the new one do its job.
